Since 1969, EML has provided the finest in synthesizers to composers, performing artists and educators.

The EML synthesizer family offers a broad range of functional capabilities responsive to the creative needs of today's musician . . . And as your musical horizons expand, so can your EML synthesizer.

Our instruments are designed and built with the care you expect. We start with the finest components and subject each instrument to the most exacting inspection at each stage of manufacture—to insure that the synthesizer you receive is truly among the finest in the world.

At EML, we know how to give you more sound to begin with and let you expand as your music grows.
